Proposal Text (attach additional pages as necessary; for bylaw, P&P, or other amendments of existing provisions, show changes with added words underlined, and deleted words with a line through them): <p>This proposal is for revisions to the Central Division Senior Program Manual - 5th Edition. The document contains the following changes: The formats have been updated and made consistent throughout the document (text, margins, paragraphs, etc.). Headings have been inserted to allow automatic creation of a table of contents (also added). A revision block has been added after the table of contents to track changes to the document. With the change of title from Senior SEM to OEC Module of Senior, I have replace all of the previous text/pages associated with the Central Division version of the Senior SEM with the National OEC Module of Senior language. The National section has a different header with the NSP logo in the header and a watermark indicating "National Doc". These changes can be found from pages 63 through 99. The last section of the document is formerly the Senior Auxiliary Patroller section. Since the "Auxiliary" title has been dropped, the section has been revised to read Senior Patroller. This section has been identified with a "DRAFT" watermark and can be found on pages 100 through 108.</p>		
Proposal Explanation and Justification (attach additional pages as necessary): <p>Proposed changes have been made to the formats making the document easier to navigate through the table of contents. A revision block has been added to the document so changes can be tracked by date and author. The SEM section has been removed and replaced with the National OEC Module language to keep consistent with the National Program. The Senior Auxiliary has been replaced with Senior Patroller to be consistent with the National language.</p>
