

Central Division Safety Team Neck Gators

Celebrate your Central Division and promote safety and goodwill. The Central Division now has its own neck gators promoting helmet safety (we have dogs!) on one end and our own safety slogans and Division logo on the other end.

Great for multiple uses, neck gator (of course), face mask, and for the more stylish, headband or do-rag.

Order now before they are gone. There are only 60 kits containing 200 gators apiece for the price of \$75, plus shipping and handling of \$30 per kit¹. We are not even breaking even at this price, but the Division Board has been generous in its support for Central Division focused Safety. And as you have heard countless times, shipping prices have risen astronomically while shipping times are slow and unpredictable.

It is expected the kits will go fast as last year our Division was among the leaders in ordering kits from National, and these are our very own!

As always, the focus of dissemination of the gators is the snowsports and biking public.

If the gators sell, we have plans going forward to do gators and lanyards with a two sided PVC card, maybe adding stickers and pins at some point. But we need your support!

Thank you from your Central Division Safety Team!

¹ Minnesota and Wisconsin residents will also be charged the applicable sales tax.
